

# GARDEN OF LOVE

## GARDEN OF LOVE 1

There's blood beneath the burns  
Till you dream beyond  
The confining world, to a brave new dawn

Who am I if I've been torn to shreds  
And left for dead , an exile of life  
Outcast from Love

Sunlight poured like wine,  
through all of the golden years  
No body's a painless shrine  
a song that no one hears  
I don't know where we are, fate led us here  
Where Love appears

You brought me to water, raised me to light  
Your Loving arms healed me

When are hands touch, we can heal  
When our eyes meet, we lose our fears

Nothing less than Love can rise again,  
rise again , rise again

## GARDEN OF LOVE 2

### 1ST VERSE

They tell me what I need and what I want Are  
their diamonds in the sea of pearls Greedy  
smiling numbered eyes want your every move  
Do you want to buy your slavery, your morality  
In a thousand creeds,  
Shielded from the sun they call for blood Say  
it's freedom, yeah I don't feel free

### CHORUS

Freedom's in the garden of love  
Shining like a star from above  
We can be together baby,  
in the garden of love

### 2ND VERSE

The sun falls through the trees  
and lights the leaves  
Kiss her golden hair as she's lying there Listen  
to the wind and the song it  
brings singing freedom  
Here I feel so free

### CHORUS

Freedom's in the garden of love  
Shining like a star from above  
We can be together baby,  
in the garden of love  
Searching for you, you found me, yeah Now I  
can see, we can be together  
forever In the garden of love

"When I think of you, I feel high..."

"I can hear you laughing for miles and miles..."

### BRIDGE

When are hands touch, we can heal  
When our eyes meet, we lose our fears  
( Repeat)  
Nothing less than Love can rise again,

### 3RD CHORUS

Freedom's in the garden of Love  
Shining like a star from above  
We can be together baby  
in the garden of Love  
Searching for you found me yeah  
Now I can see,  
We can be together forever  
in the garden of Love
