

WHERE AM I

1. VERSE

Where ever I close my eyes
I can be nowhere
But the sun brings a cruel blue sky
A cage where the shadows die

I remember when we were young
I saw so many things
That I didn't want to be
Am I some one I didn't want to be

There's beauty in broken things
If we laugh when the spirit sings

Who am I , comes and lights
When I close my eyes, where am I...

1ST - PRE CHORUS

I'm under the linden trees
In the heart of an open field
I'm travelling a winding road
And kneel by the streams that flow
The gift of the weakness that appears
Is the love that's here

CHORUS

This is the " Where I Am " and the where I'll be
The distant nearness of my own life
The hand of faith draws the line of years
For the sake of others we disappear / Holding on til we disappear
Where ever I close my eyes is
" Where am I "...

2. VERSE

We're stressing in the air
We don't remember the when or where
Why is it then I'm stuck on you
You're the earth I'm the moon
Where am I, yeah Where am I...

2ND PRE CHORUS

In the light of a million stars
I'm asleep in your silver arms
A flame in a thousand blooms
The face from the crowded room
The gift of the weakness that appears
Is the love that's here

OUTRO CHORUS

This is the " Where I Am " and the where I'll be
The distant nearness of my own life
The hand of faith draws the line of years
For the sake of others we disappear
Where ever I close my eyes is
" Where am I "...
In the breath of your love, I'll never be lonely
Never be lonely the same way again
I'll keep my eyes on the ripe line of sky
Cause the world's to wide, to wide for comfort
